

MAKING YOUR WORLD A SAFER PLACE

Miller Edge Implements 5' Channel Increment Standard

Miller Edge has officially rolled out their new 5' channel length standard. Moving forward, all orders for channel will be shipped in 5' lengths. In the event that orders do not fall evenly within the 5' standard length size, customers will still receive the full amount of length requested, plus any excess product that is required to allow shipment of a 5' length.

For example, if an order is placed for 8' of channel, the order would ship in two 5' lengths. Customers will only be billed for the amount they specified on their order and will not be billed for any excess channel shipped.

Please contact your Miller Edge Sales Representative for any questions regarding this announcement. For more information, please [visit our website](#).
