TruGuard Photo Optic System

As an alternative for applications where monitored photo optic systems featuring Normally Closed, 10k output are accepted, consider using TruGuard™ the latest addition to the Miller Edge photo optic system offering.

Additionally, Miller Edge will soon be launching Opti-Guard™, a thru-beam photo optic system also featuring Normally Closed, 10k output.

Miller Edge published pricing, in both Excel and PDF format will be updated in the coming days to reflect this change, and can be downloaded from MyEdge. Please feel free to contact your Miller Edge Sales Representative for any questions regarding this announcement.
